*Tribunal Practice and Procedure*: is the most comprehensive and authoritative guide to the integrated tribunal system created by the Tribunals, Courts and Enforcement Act 2007. It provides a structured approach to the practice and procedure of tribunals, setting the rules of procedure in context and providing a framework for understanding and analysing the practices that apply to them.

Since publication of the first edition, the tribunal structure has continued to expand with the introduction of immigration and asylum chambers in both the First-tier Tribunal and the Upper Tribunal, and the increase of jurisdictions within the General Regulatory Chamber. This new edition takes full account of those changes and the many amendments to the rules of procedure.

There is comprehensive analysis of the key procedural decisions made by the Upper Tribunal that lay the foundations for the new procedural regimes, including *R (RB) v First-tier Tribunal* on the use of the review power; *Secretary of State for Justice v RB* on the status of High Court decisions; and *LS v Lambeth LBC* on the scope of the decisions that are appealable to the Upper Tribunal.

As well as dealing with the rules of procedure, this book contains practical advice for tribunal members and those who appear before them. For parties and their representatives, it deals with obtaining and assessing evidence, writing decisions, applying for adjournments, techniques of questioning and tribunal advocacy.
